Commercial Transactions Under the Uniform Commercial Code and Other Laws, 6th Edition Donald B. King, Daniel D. Barnhizer

This comprehensive casebook is intended for a broad survey course on commercial law. This edition includes transactions under the Convention of International Sales of Goods. This book is built around carefully selected and edited cases, author notes, and selected problems. Though including landmark cases, the authors emphasize cases decided since 1990. These newer cases offer both a more sophisticated discussion of problems than usually found in earlier cases, as well as more current analyses of Code ambiguities and conflicting approaches to certain Code sections.
