DSP for MATLAB and LabVIEW (Synthesis Lectures on Signal Processing S) Forester W. Isen
DSP for MATLAB(tm)and LabVIEW(tm) covers basic digital signal processing in a practical and accessible manner, and, as it includes all essential foundation mathematics as well, is suitable for both academic and professional use.As the title of the book implies, the scripts given in the text and supplied in a downloadable .zip file (available via the internet at <http://www.morganclaypool.com/page/isen>) are suitable for use with both MATLAB, a product of The Mathworks, Inc., and LabVIEW, a product of National Instruments, Inc. The text is well-illustrated with examples involving practical computation using m-code or MathScript (as m-code is usually referred to in LabVIEW-based literature), and LabVIEW VIs. There is also an ample supply of exercises, which consist of a mixture of paper-and-pencil exercises for simple computations, and script-writing projects having various levels of difficulty, from simple, requiring perhaps ten minutes to accomplish, to challenging, requiring several hours to accomplish.
