The Sacrifice: How Scientific Experiments Transform Animals and People (New Directions in the Human-Animal Bond) Linda Birke, Arnold Arluke

The Sacrifice provides a uniquely detailed account of the sociological context of animal experimentation. The authors provide a rich analysis of complex and changing role of the laboratory animal in the political and scientific culture of the United States and the United Kingdom. By understanding the interplay of the groups, the authors view the experimental controversy as an ongoing and constantly recreated set of social processes, not just a problem of morality.
