The Classic Complete Beowulf - THE figure which meets us as we enter on the study of Heroes of the British Race is one which appeals to us in a very special way, since he is the one hero in whose legend we may see the ideals of our English forefathers before they left their Continental home to settle in this island. Opinions may differ as to the date at which the poem of "Beowulf" was written, the place in which it was localised, and the religion of the poet who combined the floating legends into one epic whole, but all must accept the poem as embodying the life and feelings of our Forefathers who dwelt in North Germany on the shores of the North Sea and of the Baltic. The life depicted, the characters portrayed, the events described, are such as a simple warrior race would cherish in tradition and legend as relics of the life lived by their ancestors in what doubtless seemed to them the Golden Age. Perhaps stories of a divine Beowa, hero and ancestor of the English, became merged in other myths of sun-hero and marsh-demon, but in any case the stories are now crystallized around one central human figure, who may even be considered an historical hero, Beowulf, the thane of Hygelac, King of the Geats. It is this grand primitive hero who embodies the ideal of English heroism. Bold to rashness for himself, prudent for his comrades, daring, resourceful, knowing no fear, loyal to his king and his kinsmen, generous in war and in peace, self-sacrificing, Beowulf stands for all that is best in manhood in an age of strife. It is fitting that our first British hero should be physically and mentally strong, brave to seek danger and brave to look on death and Fate undaunted, one whose life is a struggle against evil forces, and whose death comes in a glorious victory over the powers of evil, a victory gained for the sake of others to whom Beowulf feels that he owes protection and devotion.
