This popular resource features step by step skill instruction, and practice focused exercises covering neonatal care. Developed by a distinguished editorial board, the Perinatal Continuing Education Program (PCEP) is a comprehensive, self-paced education program in four volumes. This book features ten units covering information and skills for assessment and initial management of frequently-encountered neonatal illnesses, plus the comprehensive unit review: Is the Baby Sick?, which ties all neonatal therapies and skills together for management of sick and at-risk newborns. Topics include oxygen, respiratory distress, umbilical catheters, low blood pressure, feeding, and preparation for neonatal transport.
