The Ultimate Guide to Pregnancy

This visually stunning program takes viewers from the moment of conception to the moment of birth. Checking in at four-week intervals, it uses a broad array of high-tech photographic and computer imaging to capture every stage of embryonic and fetal development as well as the changes experienced by expectant mothers during pregnancy. In addition, a molecular embryologist and an obstetrician/gynecologist from Georgetown University Medical Center provide caring clinical commentary on the birth process. The program culminates with the filming of two births, one with and one without surgical intervention.
