Want to get in on the cutting edge techniques that are changing the way medicine treats long term degenerative diseases such as osteoarthritis? Using a patient's own stem cells, this new technique has made tremendous strides in helping patients get healing faster, with far less recovery time.

Written by Dr. Chris Centeno, this e-book explains the Regenxx approach to patients and orthopedic conditions. Whether you're suffering from an orthopedic condition, or simply interested in the human body and how everything ties together, you will enjoy exploring this book in-depth. With hyperlinks to more detailed information, related studies and commentary, this book condenses a huge amount of data and resources into an enjoyable and entertaining read.

This is the third edition of Orthopedics 2.0 with even more content and graphics.

Regenxx believes in educating patients, providing choices, offering options and encouraging people to take an active role in their own treatment. They strive to improve the quality of life for each patient through compassion, dedication and innovative treatment plans designed to meet the individual needs of the patient.

In summary, Regenxx is the longest running, most experienced, best published orthopedic stem cell therapy in the United States. They have collected more data on more treated patients than any other company and are dedicated to reinventing orthopedic care so that in the future, most patients can avoid invasive surgery.

Featured on many television and media outlets such as the Doctors TV show, ABC News Good Morning America and many others, Regenxx is taking stem cell therapy for regenerative disease to an exciting new level.
