## International Coal Preparation Congress 2010 Conference Proceedings

The challenges facing the coal preparation industry have never been more complex or daunting: China, India, and South Africa are experiencing unprecedented growth in the use of coal. India is expected to be the world's largest importer of coal through 2030. New environmental regulations in the United States and elsewhere are forcing operators to be even more innovative and resourceful. How will the burgeoning demand affect global pricing? How can coal preparation companies employ more effective cleaning processes and technologies to reduce the environmental footprint of their mining facilities and waste storage areas?

You'll find answers to these and hundreds of other critical questions in International Coal Preparation Congress: 2010 Conference Proceedings.

This 992-page book is a compilation of 118 state-of-the-art technical papers presented at the industry's most prestigious gathering. A CD containing the full text is included. Read what coal preparation experts from 20 countries have to share on a variety of current issues.
