Trans/Feminisms

Trans/Feminisms

This special double issue of *TSQ* goes beyond the simplistic dichotomy between an exclusionary transphobic feminism and an inclusive trans-affirming feminism. Exploring the ways in which trans issues are addressed within feminist and women's organizations and social movements around the world, contributors ask how trans, genderqueer, and nonbinary issues are related to feminist movements today, what kind of work is currently undertaken in the name of trans/feminism, what new paradigms and visions are emerging, and what questions still need to be taken up. Central to this special issue is the recognition that trans/feminist politics cannot restrict itself to the domain of gender alone.

This issue features numerous shorter works that represent the diversity of trans/feminist practices and problematics and, in addition to original research articles, includes theory, reports, manifestos, opinion pieces, reviews, and creative/artistic productions, as well as republished key documents of trans/feminist history and international scholarship.
