****Free video training for authors - get the step-by-step system I use Amazon to build my author platform, reach more book buyers and sell more books -> bit.ly/FYBRVideo (just copy and paste into your browser)

What will life be if you can have a simple “do it once and let it keep working” system that you can implement today and that system will keep finding, attracting and converting your book buyers into your loyal book fans?

And the good part...

You don't need a big book marketing budget to set the system up and even maintain it.

Your life as an author right now will be easier if you can learn how to setup and maintain such system that will keep getting your potential book buyers to know about your book and become a loyal fan of your book and your work as an author.

I started life as an author with three crappy books and I was clueless, tried bunch of stuffs that never worked until I settled down to start building my author platform which has grown from zero to something I'm proud of right now.

In this book, you will learn that one thing you need to focus on to sell more books over time and how you can set up your own book readers attraction system without breaking the bank or paying for book marketing ads and praying you can at least make more than you are spending on these book ads.

I've written this book in a very simple and straight forward way – not your conventional book anyway. All I just shared in this book is the system that has been the backbone of my writing career as an author and authorpreneur.

If you are serious about getting something back in return for all your hard work as an author over time, then this is a book for you.

And if you want to build a following around your writing career – a platform that can help you sell your books in the years to come, then this is a book for you to read.
