Calculus: Concepts and Contexts James Stewart

James Stewart's well-received CALCULUS: CONCEPTS AND CONTEXTS, Second Edition follows in the path of the other best-selling books by this remarkable author. The First Edition of this book was highly successful because it reconciled two schools of thought: it skillfully merged the best of traditional calculus with the best of the reform movement. This new edition continues to offer the balanced approach along with Stewart's hallmark features: meticulous accuracy, patient explanations, and carefully graded problems. The content has been refined and the examples and exercises have been updated. In addition, CALCULUS: CONCEPTS AND CONTEXTS, Second Edition now includes a free CD-ROM for students that contains animations, activities, and homework hints. The book integrates the use of the CD throughout by using icons that show students when to use the CD to deepen their understanding of a difficult concept. In CALCULUS: CONCEPTS AND CONTEXTS, this well respected author emphasizes conceptual understanding - motivating students with real world applications and stressing the Rule of Four in numerical, visual, algebraic, and verbal interpretations. All concepts are presented in the classic Stewart style: with simplicity, character, and attention to detail. In addition to his clear exposition, Stewart also creates well thought-out problems and exercises. The definitions are precise and the problems create an ideal balance between conceptual understanding and algebraic skills.

From reader reviews:

Margaret Cardwell:

Reading a book tends to be new life style with this era globalization. With studying you can get a lot of information that may give you benefit in your life. Along with book everyone in this world can easily share their idea. Ebooks can also inspire a lot of people. A great deal of author can inspire their particular reader with their story or even their experience. Not only the storyline that share in the guides. But also they write about advantage about something that you need illustration. How to get the good score toefl, or how to teach your children, there are many kinds of book that exist now. The authors on this planet always try to improve their expertise in writing, they also doing some exploration before they write on their book. One of them is this Calculus: Concepts and Contexts.

Deborah Ryan:

Why? Because this Calculus: Concepts and Contexts is an unordinary book that the inside of the publication waiting for you to snap it but latter it will surprise you with the secret this inside. Reading this book close to it was fantastic author who write the book in such incredible way makes the content within easier to understand, entertaining way but still convey the meaning totally. So , it is good for you for not hesitating having this any longer or you going to regret it. This phenomenal book will give you a lot of benefits than the other book have got such as help improving your proficiency and your critical thinking technique. So , still want to hesitate having that book? If I ended up you I will go to the e-book store hurriedly.

Matthew Haley:

This Calculus: Concepts and Contexts is great guide for you because the content that is certainly full of information for you who also always deal with world and possess to make decision every minute. This book reveal it facts accurately using great plan word or we can claim no rambling sentences included. So if you are read the idea hurriedly you can have whole information in it. Doesn't mean it only provides you with straight forward sentences but challenging core information with beautiful delivering sentences. Having Calculus: Concepts and Contexts in your hand like having the world in your arm, data in it is not ridiculous 1. We can say that no e-book that offer you world in ten or fifteen minute right but this e-book already do that. So , this can be good reading book. Hey there Mr. and Mrs. hectic do you still doubt that will?

Kelley Hardy:

Don't be worry in case you are afraid that this book will probably filled the space in your house, you could have it in e-book technique, more simple and reachable. This particular Calculus: Concepts and Contexts can give you a lot of friends because by you taking a look at this one book you have factor that they don't and make anyone more like an interesting person. This book can be one of one step for you to get success. This book offer you information that might be your friend doesn't realize, by knowing more than additional make you to be great individuals. So , why hesitate? We should have Calculus: Concepts and Contexts.
