It was more than 20 years ago that George Lucas introduced us to the Star Wars universe. It was unlike any other science-fiction movie of the time, both in effects and its spiritual undertones. Naya was about eight years old when she first saw Star Wars. Like most of the kids her age, she was enthralled by the excitement of it all, but there was something else too. Seeing Star Wars opened new possibilities for her. What if she could be a Jedi Knight? It started out mostly as a game, but after learning more about what the Force was and what the Jedi were, it became a more serious goal. Of course she knew she couldn't be a "real" Jedi...at least not in the Star Wars sense, but a seed had been planted in the back of her mind and something had been set into motion! something that at the time was no more than a whisper in the back of her mind. Star Wars was the spark she needed to ignite the flame that lead her to her path.
