Testable JavaScript Mark Ethan Trostler

One skill that's essential for any professional JavaScript developer is the ability to write testable code. This book shows you what writing and maintaining testable JavaScript for the client- or server-side actually entails, whether you're creating a new application or rewriting legacy code.

From methods to reduce code complexity to unit testing, code coverage, debugging, and automation, you'll learn a holistic approach for writing JavaScript code that you and your colleagues can easily fix and maintain going forward. Testing JavaScript code is complicated. This book helps experienced JavaScript developers simplify the process considerably.

- Get an overview of Agile, test-driven development, and behavior-driven development
- Use patterns from static languages and standards-based JavaScript to reduce code complexity
- Learn the advantages of event-based architectures, including modularity, loose coupling, and reusability
- Explore tools for writing and running unit tests at the functional and application level
- Generate code coverage to measure the scope and effectiveness of your tests
- Conduct integration, performance, and load testing, using Selenium or CasperJS
- Use tools for in-browser, Node.js, mobile, and production debugging
- Understand what, when, and how to automate your development processes

From reader reviews:

Richard Ma:

What do you think about book? It is just for students since they are still students or the idea for all people in the world, exactly what the best subject for that? Just you can be answered for that query above. Every person has various personality and hobby for each other. Don't to be pushed someone or something that they don't need do that. You must know how great as well as important the book Testable JavaScript. All type of book could you see on many methods. You can look for the internet resources or other social media.

George Medrano:

Spent a free time and energy to be fun activity to try and do! A lot of people spent their spare time with their family, or their friends. Usually they undertaking activity like watching television, planning to beach, or picnic in the park. They actually doing same every week. Do you feel it? Do you wish to something different to fill your personal free time/ holiday? Could be reading a book may be option to fill your totally free time/ holiday. The first thing that you ask may be what kinds of book that you should read. If you want to try look for book, may be the book untitled Testable JavaScript can be fine book to read. May be it may be best activity to you.

Shalon Dougherty:

Reading can called mind hangout, why? Because when you find yourself reading a book especially book entitled Testable JavaScript your head will drift away trough every dimension, wandering in each and every aspect that maybe unfamiliar for but surely will end up your mind friends. Imaging each word written in a publication then become one web form conclusion and explanation in which maybe you never get ahead of. The Testable JavaScript giving you another experience more than blown away your mind but also giving you useful information for your better life on this era. So now let us show you the relaxing pattern the following is your body and mind will be pleased when you are finished reading it, like winning a casino game. Do you want to try this extraordinary wasting spare time activity?

Courtney Osteen:

Many people spending their time frame by playing outside having friends, fun activity together with family or just watching TV the whole day. You can have new activity to invest your whole day by reading through a book. Ugh, do you think reading a book can really hard because you have to accept the book everywhere? It all right you can have the e-book, taking everywhere you want in your Touch screen phone. Like Testable JavaScript which is getting the e-book version. So , try out this book? Let's see.
